VA SSG Fox Suicide Prevention Grant Program — FY2027

Prepared for: Veteran Service Organization Leadership
Date: March 2026
Contact: partnerships@beaconmomentum.com
Web: beaconmomentum.com/labs

The Opportunity

The VA's **SSG Fox Suicide Prevention Grant Program (SPGP)** has announced **$112 million in available funding** for FY2027, with individual awards ranging from $100,000 to 750,000. The **application deadline is June 12, 2026.**

The program explicitly prioritizes organizations that reach veterans who are *not* currently engaged with VA healthcare — the 60% of at-risk veterans who never walk through a VA door. This is the population that digital-first, community-based platforms like Beacon Momentum are uniquely positioned to serve.

Beacon Labs is a Wyoming LLC actively seeking one or more 501©(3) fiscal sponsor partners to submit a joint application before the June 12 deadline.

Who We Are

Beacon Momentum is a peer-driven transformation platform built by and for people navigating life's hardest transitions — veterans, formerly incarcerated individuals, recovering addicts, and anyone rebuilding from the ground up.

Our founder, **Bob Burr**, is a Navy veteran, Presidential Award recipient, and the founder of GraceHouse — a transitional housing program that achieved a **7–8% recidivism rate** against a state average of 55–60%. That track record of measurable, real-world transformation is the standard we hold our technology to.

Beacon Labs is the technology and consulting division of Beacon Momentum. We build and deploy AI-enhanced systems for community organizations, nonprofits, and mid-market businesses. Our infrastructure runs on a Mac Studio M3 Ultra with 256GB of unified memory — capable of running large language models entirely locally, ensuring client and participant data never leaves our secure environment.

The Platform

Beacon Momentum operates three interconnected pathways:

Pathway	Population Served	Core Mechanism
Beacon Rise	Veterans, formerly incarcerated, recovery community	Peer support, stabilization, community belonging
Beacon Launch	Solopreneurs, career transitioners	Business building, income generation, accountability
Beacon Academy	Advanced members, mentors	Leadership development, teaching, legacy building

What makes Beacon different from existing VA programs:

- **Digital-first and asynchronous** — accessible 24/7, no appointment required, no stigma of walking into a clinical setting
- **Economic stabilization integrated with mental health** — financial instability is a primary driver of veteran suicide; we address both simultaneously
- **Peer-led, not clinician-led** — participants are guided by people who have lived the same experiences, which the research consistently shows produces better engagement and retention
- **AI-enhanced, not AI-replaced** — our technology handles logistics, follow-up, and content delivery so human mentors can focus entirely on relationships

---

The Grant Alignment

The Fox Grant program funds “nontraditional and innovative approaches” to veteran suicide prevention. Beacon Momentum’s model directly addresses the VA’s stated priority areas:

VA Priority	Beacon Momentum Response
Reach veterans not in VA care	Digital platform with no clinical requirement for entry
Address social determinants of suicide risk	Integrated income-building and financial literacy curriculum
Peer support and community connection	Cohort-based accountability groups with veteran peer mentors
Innovative delivery mechanisms	AI-enhanced content delivery, progress tracking, and early intervention alerts
Measurable outcomes	GHL CRM tracks engagement, milestone completion, and 90-day retention

---

The Partnership Model

We are proposing a **Fiscal Sponsorship arrangement**, the most common and legally straightforward model for this type of collaboration.

Your organization’s responsibilities:

- Serve as the primary applicant on the grant submission
- Manage grant compliance, reporting, and financial administration
- Receive a standard administrative fee (typically 10–15% of award)
- Provide organizational credibility and existing VA relationships

Beacon Labs’ responsibilities:

- Write the full program narrative and application
- Deploy and operate the Beacon Momentum platform for the funded program

- Provide all technology infrastructure at no additional cost to the grant
- Deliver measurable outcomes for your reporting requirements
- Manage day-to-day program operations

Financial structure (illustrative, $500,000 award):

Item	Amount
Administrative fee to fiscal sponsor (12%)	$60,000
Platform operations and technology	$120,000
Peer mentor stipends and training	$180,000
Outreach and participant acquisition	$80,000
Evaluation and reporting	$60,000
Total	**$500,000**

Why Act Now

The June 12, 2026 deadline is approximately 85 days away. A competitive Fox Grant application requires:

- Organizational registration on Grants.gov and SAM.gov (2–3 weeks if not current)
- A complete program narrative (3–4 weeks to develop collaboratively)
- Letters of support from community partners (2–3 weeks to collect)
- Budget justification and evaluation plan (1–2 weeks)

We need to begin the partnership conversation no later than April 15, 2026 to have adequate time for a competitive submission.

Next Steps

We are requesting a **30-minute discovery call** to determine whether a partnership is the right fit for both organizations. There is no obligation beyond the conversation.

In that call, we will cover:

1. Your organization's current grant management capacity and Fox Grant history
2. The veteran populations you currently serve and any gaps in reach
3. How Beacon Momentum's platform would complement your existing programs
4. The specific financial and operational terms of a fiscal sponsorship

To schedule: Email partnerships@beaconmomentum.com with "Fox Grant Partnership" in the subject line, or visit **beaconmomentum.com/labs#partner-program**.

Supporting Materials Available Upon Request

- Full Beacon Momentum platform walkthrough (live demo)
- GraceHouse outcome data and third-party evaluation reports
- Beacon Labs technology architecture overview
- Draft program narrative framework
- Sample MOU for fiscal sponsorship arrangements

Beacon Momentum, LLC is a Wyoming limited liability company. Bob Burr, Founder. The Lighthouse is Lit.
